Profile

Aspiring UI/UX Designer & Full-Stack Web Developer pursuing a B.E degree in Computer Science. Skilled in designing user-friendly interfaces and building responsive web applications using Figma, HTML, CSS, JavaScript, Bootstrap, jQuery, and DOM manipulation, with backend experience in Node.js and Express.js. Familiar with databases including SQL and MongoDB, along with Git and GitHub for version control, and passionate about creating intuitive digital experiences.

Education

COMPUTER ENGINEERING, PIMPRI CHINCWAD COLLEGE OF ENGINEERING AND RESEARCH Present
9 GPA/CGPA PUNE, INDIA

Skills

UI/UX Design Proficiency

Figma, Adobe XD, Canva, wireframing, prototyping, design systems, color theory, typography, accessibility guidelines, usability testing

Frontend Development Proficiency

HTML5, CSS3, JavaScript (ES6+), Bootstrap, responsive design, website optimization, Node.js, Express.js, RESTful APIs, SQL & MongoDB database integration, server-side logic, and Git/GitHub version control.

Google Cloud – Basic Knowledge

Hands-on experience with core GCP services such as Compute, App Engine, Cloud Functions, Storage, APIs, and networking. Familiar with basic cloud deployment and GenAI concepts using Vertex AI and Gemini (Google Cloud Arcade – GenAI Level 3).

Programming & Database Proficiency

C, C++, Python, SQL, MongoDB

Organisations

Codecraft (College Club), Design Member

Created posters, presentations, and social media graphics to promote club events and workshops, while collaborating with team members to maintain consistent branding and boost engagement within the college community.

Projects

EduGames | SIH: Built an offline gamified learning app with React.js, Tailwind CSS & Expo, featuring interactive practice and a Delta Decay system for tracking learning outcomes.

Local Connect | TE Project: Developed a full-stack local services platform using React.js, Node.js & Firebase with an analytics dashboard, deployed on Vercel.

Yukti AI| AI-powered Productivity Platform Developed using React, TypeScript, and Vite, delivering a fast, interactive interface for smart content generation and personalized user support.

Food Delivery App | Interactive Prototype: Designed a high-fidelity interactive prototype focusing on a smooth user journey from browsing to checkout with intuitive navigation.

Website Landing Page | UI/UX Design: Created a responsive landing page with clear visual hierarchy and strong calls-to-action to improve user engagement and conversions.

Certificates

Google UX Design Professional Certificate

Issued by Google on Coursera – Validates completion of seven courses covering the end-to-end UX design process.

JavaScript Mastery

Advanced JavaScript concepts with emphasis on clean code, best practices, performance optimization, and efficient problem-solving.

Udemy UI/UX Design

Issued by Udemy – Covers fundamental principles of UI/UX, including user-centered design thinking, visual design, and building interactive prototypes.

Complete JavaScript with HTML5 & CSS3

Strong foundation in HTML5, CSS3, and modern JavaScript, focusing on building responsive, interactive websites from scratch.
